

Releasable Cable Ties

Plastic Cable Ties

Tork releasable cable ties are produced from Polyamide 6.6 material, which is known as the most durable of plastics. It has high strength and hardness thanks to its semi-crystalline structure. Thanks to these structural features, Tork releasable cable ties are the most suitable material for working under load due to their very high bending and tensile strength and low coefficient of friction.

Certificates

Reach, Rohs, Halogen free,

- Use only high quality plastics that can be recycled in nature
- High breaking strength with low application force
- High adhesion strength
- Special design that provides ease of application
- Easy manual application
- Ability to be reapplied by removing it from the application area

Technical Specifications

- Raw material: PA 6.6 & Solvent Tape
- Moisture Absorption: 2.7% (50% relative humidity)
- Operating temperature: -40°C to +85°C
- Application temperature: -10°C +60°C
- Burning degree: UL 94 class V2
- Halogen Free: Yes

Scope of application

- Electrical Industry
- Industrial cabling
- Energy sector
- Building and construction industry
- Automotive

Colour

- Natural
- Black

Part No.	Dimension mm			Paking unit/pcs
	A	B	C	
TRK-200x7,5	1,3	7,5	200	100
TRK-370x7,5	1,3	7,5	370	100
